

AICHAOUI OUSSAMA

Full Stack Developer & Information System Administrator

Aïn Taya, Algiers, Algeria • ouss.aich2022@gmail.com • +213 792333219

PROFILE

I am a Full Stack Developer and Information System Administrator with over 6 years of experience in software engineering. I excel at solving complex problems and delivering innovative solutions to enhance processes and drive business growth.

PROFESSIONAL EXPERIENCE

SARL ETPB CHEMRINE

Blida, Algeria

Full-Stack Developer

2020-2022

- Developed a PHP (Laravel) web platform, increasing backend efficiency.
- Created engaging front-end experiences with React.js and SCSS.
- Built RESTful APIs for mobile app integration and real-time data updates.
- Integrated Twilio for SMS notifications and Google Maps for location services.
- Ensured security during deployment and conducted unit and integration testing.
- Designed and optimized MySQL databases and documented APIs for future reference.

DJEZZY

Dar El Beïda, Algeria

Database Engineer

2018-2019

- Conducted interviews to gather project requirements for managers.
- Analyzed information flow to identify inefficiencies.
- Developed a MySQL database for project management tasks.
- Built a web app using PHP, Bootstrap, CSS, and jQuery for project managers.
- Secured applications with access rules to protect sensitive data.
